

How does it works?

What is MATCH MONEY?

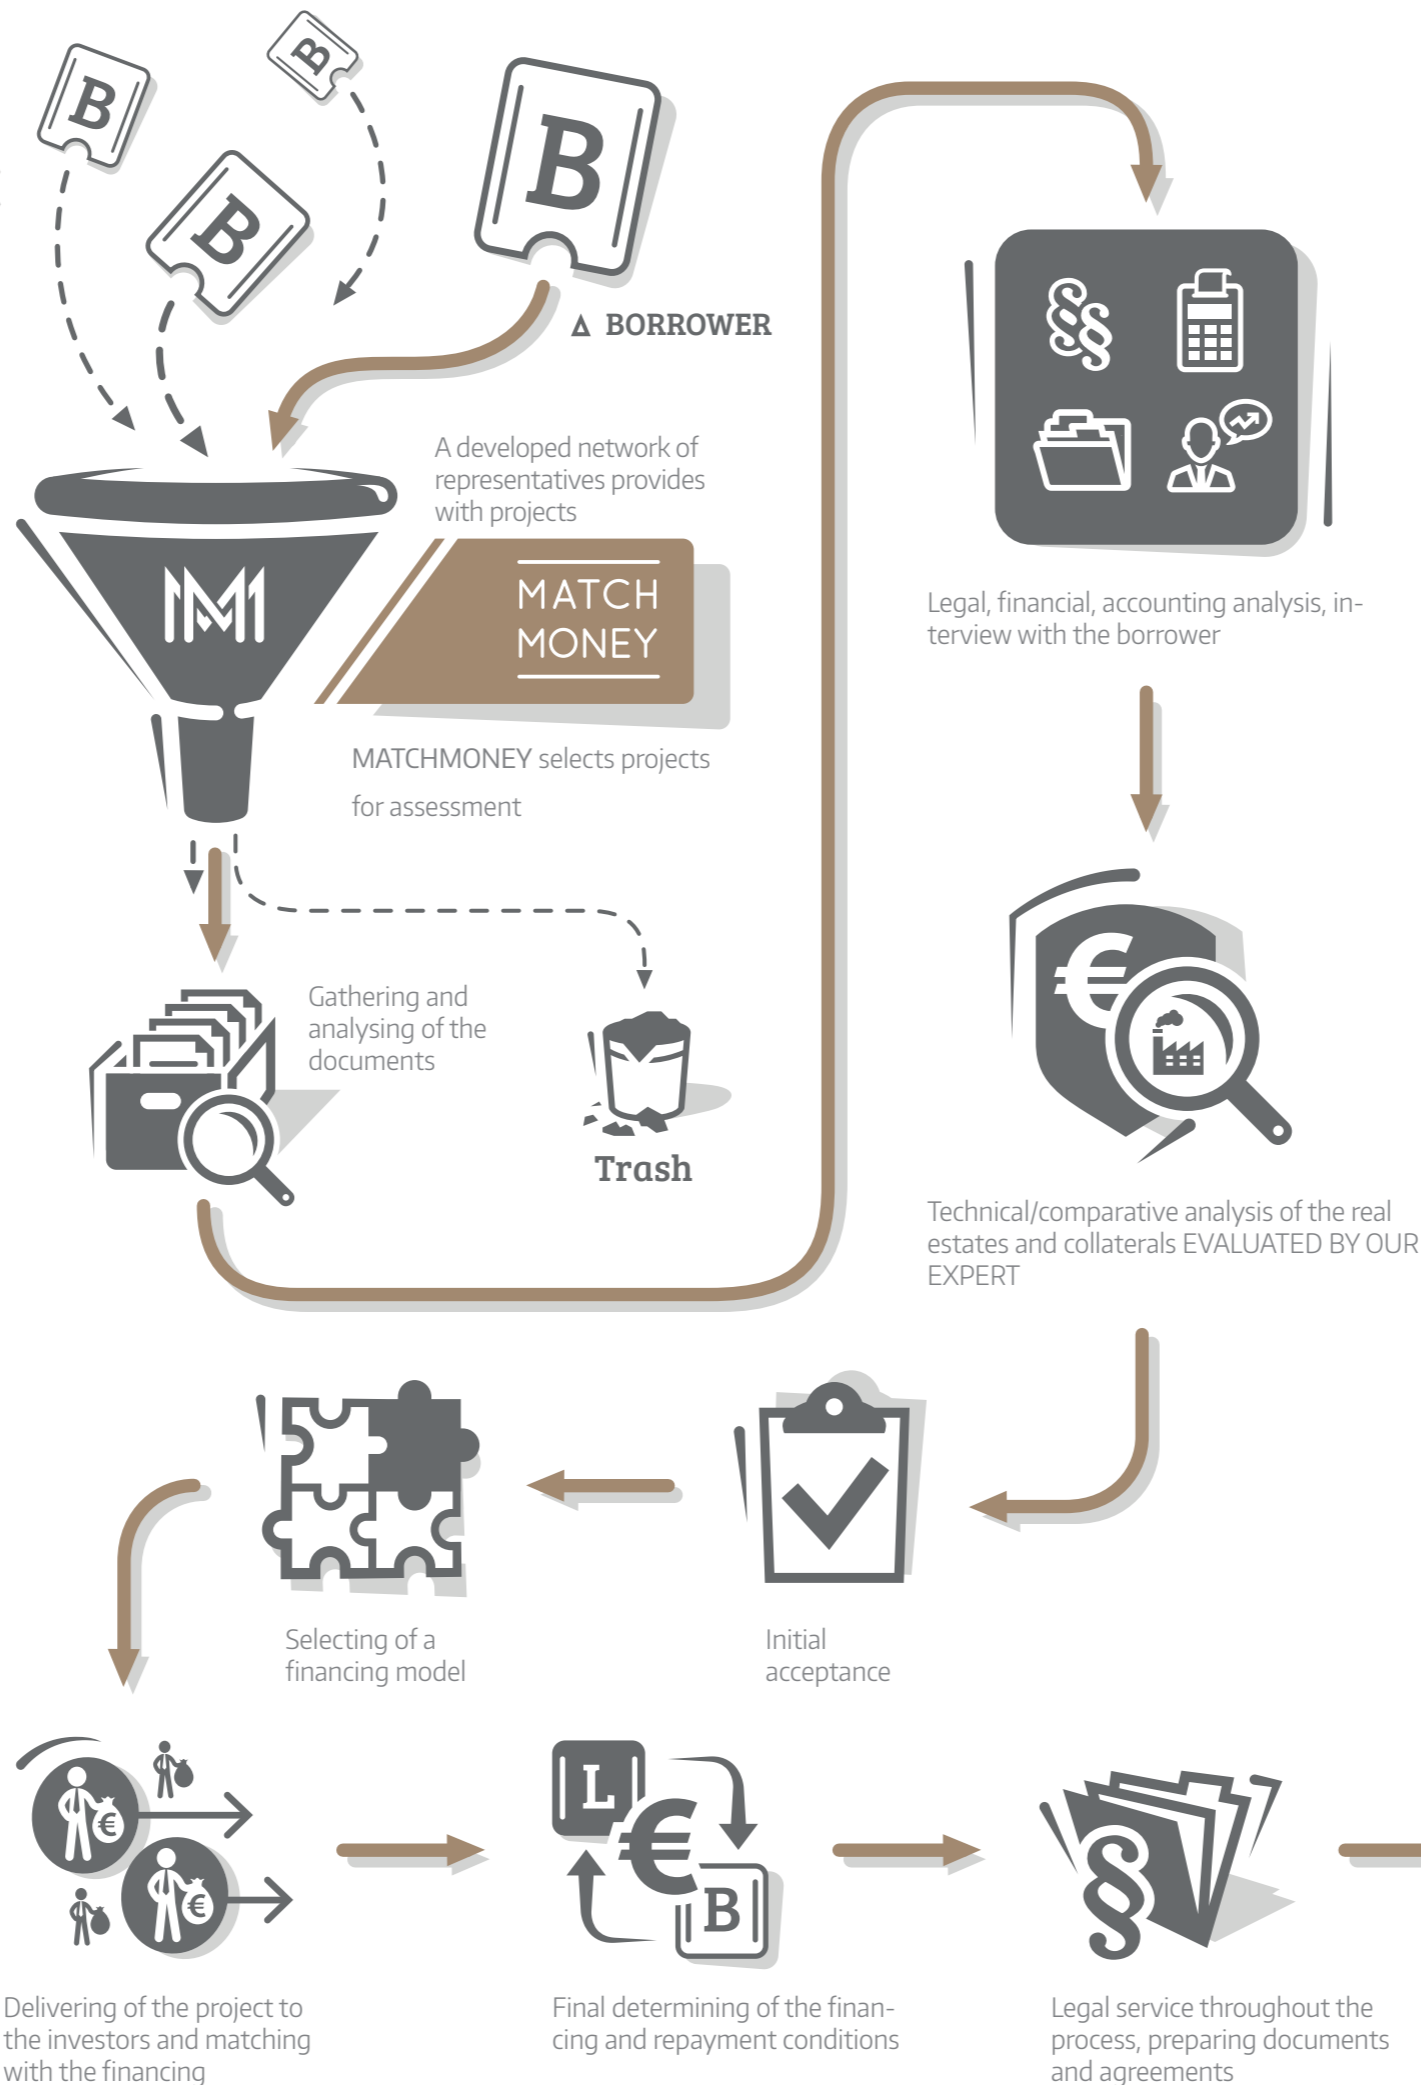

MatchMoney has been created to enable a non-banking financing for business through well collateralised private loans.

We complete the banks' offer where obtaining of financing is very often impossible because of formal requirements, bank's policy or simply a short time for carrying out the transaction.

We merge the investor's potential with a properly selected ventures needing financing.

For the borrowers it is a possibility to obtain quick financing for a time period within from a few months up to 5 years with competitive conditions and clear rules.

For the investors MatchMoney gives a full service of an alternative, simple and safe model of making money on their capital.

As an investor you may count on:

- Selected and verified financing projects
- Professional analysis of the entity applying for a loan (legal, financial, accounting analysis and technical collateral's analysis, research)
- Assessment and selection of collaterals
- Securing the loan with AT LEAST twice the value of the borrowed capital
- Legal assistance at each stage of the project (preparation of agreements, legal structure, collaterals, services of a notary public)
- Monitoring of the loan
- High refund rates exceeding significantly those which are offered within the bank market
- Assurance of the capital thanks to strong collaterals (the aim of MatchMoney is to ensure a multi-level security for each transaction)
- Profit and quick bonus due to monthly payment of interests
- Possibility to disperse the risk by establishing an investors' consortium – several investors participate in one project
- Discretionary investment period
- Lack of any costs

Completion of the process

Implementation of collaterals:

- notarial deeds
- filing applications to the court
- supervision

We make opportunities
